Suites Alba promotes a solidarity dinner with the theme of “*three chefs for a better future*”.

The dinner will be held on the 9th of June at the Morgadinho Restaurant, Suites Alba Resort & Spa which is owned by Luis Figo.

At this special event, Chef Louis Anjos has invited Chef Bouazza Bouhlani from Convento do Espinheiro Hotel in Evora and Chef Octavio Freitas from Four Views Hotels in Madeira to prepare a dinner together in support of young graduates with needs from the Chaîne des Rôtisseurs Gastronomy School.

“Cook for a better future” is the expectations of these three Chefs with part of the proceedings reverting back to the Chaîne des Rôtisseurs Gastronomy School, an institution of professional education that welcomes and integrates young people in need. The training in the kitchens gives young people an opportunity to have a better future and to overcome economic difficulties. The boys are given hope and helped to achieve a better life with a promising future ahead.

Louis Anjos ideal is that “cooking is our profession, but it is also a pleasure, a joy and an act of sharing with others. Our work can also be a social contribution and in this case, so that young people can have a better future”.

This event will have the collaboration of the students from the Chaîne des Rôtisseurs Gastronomy School which have been invited by the three chefs. The students will help in the preparation of the dinner. On the morning of the 11th of June, the students then will do a presentation and a practical session to represent their school.

At this dinner, the wine producers from Quinta da Casa Amarela and Adega do Cantor will be joining this event to launch their wine production “North & South”.

This dinner is supported by Prochef, Vista Alegre Alantis, Garrafeira Saint Graal, Adega do Cantor e Quinta da Casa Amarela.
